Preparation

Theme : "Let's introduce organizations that are trying to solve global and social problems in your country!"

The purpose of the theme is to introduce excellent organizations working to solve social issues in their own countries to each other, and to raise awareness of social activities around the world.

- Firstly, use your smartphone or computer to research such organizations by yourself and choose some that you would like to introduce. In this case, an "organization" can be a company, NPO, foundation, or voluntary organization.
- It can be an organization that solves problems in the local community or an organization that solves problems on a global (earth) scale. However, their headquarters must be in your country.
- It doesn't matter how many organizations you introduce. Please prepare your introductions in a way that is as easy to understand as possible. Everyone will give a presentation during the pre-training.
