

Video Call Communication Events at “Okinawa Global Festa 2019” JICA Okinawa

Rev. September 27, 2019
Supratarka (NPO)

Supratarka organizes video call communication events during “Okinawa Global Festa 2019” at JICA Okinawa.

The aim is to provide opportunities for anyone who is interested in global communication (especially visitors to the Festival) to meet and share ideas and opinions globally, by video call.

There are 4 video call events during the festival. Each event has a certain theme. We welcome anyone who is interested in global communication from anywhere on Earth.

Date

November 2nd (Saturday), 3rd (Sunday)

Time: 11:00 – 12:00, 14:00 – 15:00 *Japan time

*2 times a day.

Participants

- Visitors to the festival.
- Anyone on Earth who is willing to join global communication by video call.

Theme

November 2nd (Saturday)

1. 11:00 – 12:00 “Hello world!”

We say hello to each other and introduce one’s present life to each other among participants on the projected screen. We will ask questions to each other to know our daily lives. Some of them join at night, some of them join at home, and some of them join at school. We can see each other’s life through the screen.

2. 14:00 – 15:00 “What is necessary for a bright future for mankind?”

The theme includes environmental issues, global warming issues, disparity problems, food problems, peace issues, etc.

We will exchange ideas and opinions on various topics to find a “bright future for mankind”.

November 3rd (Sunday)

3. 11:00 – 12:00 [“Hello world!”](#)

*Same style as on Saturday.

4. 14:00 – 15:00 [“What will the Earth be like in 30 years?”](#)

When the present generation of primary school students become adults, how will the world be?

Opinions might be pessimistic, or optimistic. We welcome both of them and ask, why? to develop those ideas and opinions. We will collect opinions from all generations (from children to adults) during discussion.

Equipment

- Any device (PC, Smart phone, tablet) is acceptable.
- We use Zoom software for video call.
